## GERMANS British Forces Successful in Counter-Moves

### Nazis Cleaned Out Of Historic City After Stubborn Resistance—Artillery Duel Is In Progress

PARIS, May 16.—The French general in immediate command in the Sedan sector advised headquarters tonight that his forces are "complete masters of the situation" and will regain full control of their front within one week.

A war ministry spokesman said the Germans are under heavy counter-attack by French air forces.

He declared the German columns will be "rounded up quickly" and denied emphatically that the Germans have reached Laon and Reims, 50 miles southwest of Sedan, as has been rumored.

By RICHARD D. McMILLAN

British United Press. Exclusive Cable to The Edmonton Bulletin.

WITH THE BRITISH EXPEDITIONARY FORCE IN BELGIUM, May 16.—Three successive counter-attacks by British troops last night and today drove Germans from Louvain, where their advance troops had penetrated.

The German troops, driving forward in armored strength as they have elsewhere along the Belgian front, succeeded in slicing through the British lines and entering portions of Louvain yesterday.

British forces promptly launched counter-attacks. The

PARIS, May 16.—Following is the evening communique of the French high command:  
"The battle is continuing on the whole with the same intensity.  
"Very spirited engagements took place at certain points.

"Our bomber aviation, protected by pursuit planes, successfully staged vigorously directed attacks on enemy motorized columns sighted by our reconnaissance aviation."

attacks started last night and were continued today until the last of the German forces were driven out of the city.

### Germans Were Fortified Strongly

The entrance into Louvain was made by German shock troops, who fought their way into the town and immediately threw up barricades and fortified themselves strongly.

The British launched immediate counter-attacks. The Germans, fighting in the streets of the historic city, which was devastated in the world war and is fast being built to pieces in the present battle, put up the most stubborn resistance.

In addition to forcing their way into the city, the Germans also advanced to the outskirts of the town at two places. But here, too, vigorous counter-attacks by the British troops repulsed them.

Louvain is under heavy German shell fire as this dispatch is being sent, and British batteries are replying to the German guns.

By AXEL DE HOLSTEIN

Navy Staff Writer

PARIS, May 16.—Major Allied and German forces came into contact last night between Antwerp and Namur along a line that runs roughly east of Louvain to Gembloux and Namur, opening the second large-scale battle concurrently with the conflict still raging along the Meuse, a general staff spokesman said today.

### Wounded Prisoners

LONDON, May 16.—Belgium 30 and 40 wounded German prisoners were brought to London today.

6	<b>PRESIDENT ASKS ENSURE PLANES TO HELP ALLIES</b>
7	WASHINGTON, May 16.—President Roosevelt today asked the United States Congress to take no action which would interfere with delivery of airplanes to the Allies.
8	He said, in this connection:
9	"For the permanent record, I ask the Congress not to take any action which would in any way hamper or delay the delivery of American-made planes to foreign nations which have ordered them, or seek to purchase more planes."
10	That, from the point of view of our national defense, would be extremely shortsighted.

## Royal Commission Members Sign Their Report

Members of the Royal Commission on Dominion-Provincial Relations, whose report, tabled in the House of Commons today and made after hearing submissions from Canada, advises broad changes in management of government finances, are shown above, signing the printed volumes of their findings. Left to right are Prof. H. P. Angus, Vancouver, head of the department of economics, political science,

sociology and commerce at the University of British Columbia; Dr. John W. Duff, editor-in-chief of the Winnipeg Free Press and chairman of the University of Manitoba; Dr. Joseph Smith, Quebec barrister, professor and secretary of the Faculty of Law, Laval University, appointed chairman of the commission on resignation of Hon. N. W. Rowell; Prof. R. A. Mackay, Halifax, professor of government and political science, Dalhousie University.

## INSURANCE FOR JOBLESS NOW PLANNED

Measure Will Be Brought In At Parliament

OTTAWA, May 16.—Enactment of a measure "to establish unemployment insurance on a national scale" was the only specific legislative forecast contained in the speech from the Throne read this afternoon by the Prime Minister, Mr. Mackenzie King.

This legislation, to be enacted at the present session, is proposed "as a contribution to industrial stability in time of war, and to social security and justice in time of peace."

A resolution will be introduced

Full text of the speech from the Throne will be found on page 2.

first for an amendment to the British North America Act to empower parliament to enact such legislation.

ESSENTIAL MEASURE  
Parliament would be asked, the speaker stated, "to consider measures deemed essential for prosecution of the war for the social and economic requirements of the country."

After outlining the progress of the "great conflict in the history of mankind," the speaker declared "these tragic events have had served to intensify our determination to share in the war effort of the Allied powers to the utmost of our strength."

Warm tribute was paid to the late governor-general of Canada, Lord Tweedsmuir, and a cordial welcome was extended to his successor, the Earl of Athlone.

Government supporters pounced on their speech in a noisy ovation to Prime Minister Mackenzie King as he took his seat in the commons.

NEW SPEAKER  
Mr. King nominated a Mauboula Liberal member, James A. Glen, of Marquette, as the new speaker in succession to Hon. Pierre F. Caron, who had resigned the cabinet as secretary of state. Mr. Glen took the oath of office.

Prime Minister King warmly congratulated Mr. Hansen upon his election as opposition leader.

The Conservative front bench was strengthened from a few months ago when Hon. R. J. Manion led the opposition.

Some members were accorded front bench seats. Dr. Herbert A. Brown, leader of the opposition, was moved from the front row seat to Mr. King's right hand.

Mr. King's right hand, justice minister, recovered from his recent illness, was in his usual place at the desk with Mr. King.

Mr. King's right hand, justice minister, recovered from his recent illness, was in his usual place at the desk with Mr. King.

LONDON, May 16.—British news in Switzerland have been asked by British authorities to leave that country, the British Broadcasting Corporation announced today.

## Report Advises Radical Change Govt. Machinery

Main Royal Commission Recommendations  
Are of Financial Nature—Report  
Tabled in Parliament

By JOHN MAGOR

British United Press. Exclusive to The Edmonton Bulletin

OTTAWA, May 16.—Recommendations which would give Canadian governmental machinery its most radical re-adjustment since Confederation are contained in the report on Dominion-provincial relations tabled in parliament today by Prime Minister Mackenzie King.

Two and a half years of painstaking and divided into three bulky volumes, the report deals with every subject which has raised difficulties in the conduct of national affairs, and several amendments to the British North America Act are suggested.

Most revolutionary recommendations are, however, financial. They are:

1.—The Dominion assume all provincial debts (both direct debts and debts guaranteed by the provinces) and each province pay over to the Dominion an annual sum equal to the sum which it now receives from the provinces.

2.—A system of national adjustment grants replace the present grant of subsidies and be reviewed periodically by a finance commission which would recommend changes in the amount of the grants.

3.—The provinces surrender certain forms of taxation which would become the sole right of the Dominion government.

VITAL ECONOMIES  
By shouldering all provincial debts, the commission figures that the Dominion government would be able to effect vital economies in the co-ordination of taxation, borrowing and monetary policies, industrial and agricultural subsidies and protection, in public works, programs, vocational training and labor transfer facilities. As the federal government takes over the responsibility for the national economies, the total national economies in this field will also be effected.

But even after the economies and the Dominion government would be able to effect vital economies in the co-ordination of taxation, borrowing and monetary policies, industrial and agricultural subsidies and protection, in public works, programs, vocational training and labor transfer facilities. As the federal government takes over the responsibility for the national economies, the total national economies in this field will also be effected.

4.—Broadening of income tax rates, increasing business on lower and middle brackets and increasing succession duties. Progressive elimination of sales tax.

5.—Dominion jurisdiction over hours and wages and a national employment service. All collective agreements to be held with provinces.

6.—General review of freight rates urged. No opinion on railway amalgamation, as outside scope. Disasters of uncontrolled railway highway rivalry pointed out.

7.—Regular Dominion-Provincial conferences to be held with permanent Dominion secretariat.

8.—Merger of prairie provinces and merger of maritime provinces. Disasters of uncontrolled railway highway rivalry pointed out.

Full summary of Royal Commission report will be found on page 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100.

## GERMANS WILL BE DEFEATED REYNAUD SAYS

Nazis Stake All On Thrust,  
French Premier  
Declares

PARIS, May 16.—Premier Paul Reynaud told the French chamber of deputies today that Germany "has decided to stake its life" on the western front offensive and will be defeated.

The German thrust through the low countries now is aimed "at the heart of France," Reynaud declared. He promised Belgium that "our victory will be hers."

"When all can see lost," Reynaud declared, "the world will see what France is capable of."

He recalled that Germany had declared the war to win the war in two months.

UNTOED PRIVATION  
The premier briefly reviewed the history of German preparations for war, declared that tanks and planes bought at the price of untold privation by the German population have now been turned against the western front.

"Hitler wants to win the war in two months," he said. "If he fails, he is doomed. He knows it. He has no other plan. He is perfectly aware of the peril."

"The days and months ahead are going to decide the centuries to come."

"One must not be content with vague hope and words. Our soldiers are fighting, French blood is flowing. The times through which we must live will, perhaps, have nothing in common with what we have known."

MAY CHANGE EVERYTHING  
"Revolutionary measures will be necessary. Perhaps we will have to change everything, methods and men."

"We are full of hope because we know that our lives count for nothing."

The house adjourned without a vote after its president, Edouard Herriot, followed Reynaud with an address. Herriot said that the confidence shown by his applause "the chamber has in you."

REYNAUD HIMSELF  
Reynaud has refound himself. Again his life is so closely linked with the nation's fate that he is suffering, he said, from a nervous breakdown and one day our joy shall be his grief.

"Holland has lost her territory, but refused in a few days the virtues that have made her grandeur in history."

"The guard regiment lost 80 per cent of its effective. The Netherlands government has fled. We are at your side to the last with all the resources of our Empire."

"In France and Great Britain all parties have for several days been engaged in the same struggle. These pluri-party nations as Goebbels would say—are governed by men drawn from all classes of the people."

## GERMANS FROM ALBANIA

## Greek Troops Are Rushed To Frontier Zones

### Reinforcements Pour Into Border Region Facing Italian-Occupied Albania As War Feared

ATHENS, May 16.—Greece poured troop reinforcements today into her mountainous frontier region facing Italian-occupied Albania, just across the entrance of the Adriatic from the heel of the Italian boot.

(Apparently the Greeks were feeling the pinch of Allied and Italian rivalry for strategic position in the eastern Mediterranean. However, insecurity of communications from Athens by way of Budapest, the channel of this dispatch, and perhaps Greek conservatism obscured the full meaning of the troop movements.)

The telephone connection from Athens to Budapest was broken in the middle of the dispatch.

In the reported move, without confirmation, that Great Britain was pressing Greece for permission to establish naval bases on Greek islands.

## F. D. R. ASKS BILLION FOR U.S. DEFENCE

Dangers Confront United States, President Tells Congress

WASHINGTON, May 16.—President Roosevelt asked the United States Congress today for \$1,182,000,000 in cash and credit authorizations for military implements to "meet any lightning of the military security and defense."

In a momentous message delivered in person to the house and senate assembled in joint session at a few long notices, the president said earnestly that dangers confront the United States because of the war in Europe and the speed with which modern armies may conquer time and space.

The president broke his request down to \$600,000,000 in immediate appropriations, \$500,000,000 in cash and \$82,000,000 in credit authorizations for military implements to "meet any lightning of the military security and defense."

ENTER CONTRACTS  
In addition, he asked Congress to authorize the government to enter into contracts for the purchase of \$100,000,000 to be paid for by appropriations.

Of the latter, the army, navy and marine corps would receive \$100,000,000 and the president \$100,000,000.

The president said he would "to the ability to turn out at least \$100,000,000 a year."

"Furthermore," he added, "I believe that this nation should plan at this time to develop a program to provide us with 50,000 military and naval planes."

"These are ominous days," he declared, "days when swift and shock developments from every quarter of the world look to the defenses in the light of new factors. The brutal force of modern weapons and the mechanized armies move, of gas, of bombing attacks."

READY WEAPONS  
Explaining the purposes of the new defense fund, Mr. Roosevelt said it would be used for four things:

1.—To procure the essential equipment of all kinds for a

Continued on Page 2, Col. 5

## PREMIER KING ASKS SUPPORT ALL MEMBERS

OTTAWA, May 16.—Prime Minister Mackenzie King appealed for the support and co-operation of all members of the House of Commons in the government's heavy task of carrying on the war as the House of Commons met today.

Mr. King said that he had received a prompt assurance of aid from Hon. R. B. Hanson, Conservative house leader.

"Responsibility of government is not a matter of party," he said. "Every one can make a contribution and will be expected to do so fearlessly and to the best of his ability."

"I consider it my duty as leader of the opposition," said Mr. Hanson, "to render the cause of liberty and freedom the best help I can."

Mr. Hanson said the opposition would expect from the government a full account of its stewardship in the past year.

"Canada's participation in this great conflict, which I fear may grow into a world war, has been a full and honorable one."

"I should be bound only by our ability in men, in intelligence and in resources."

## Canadians Planning To Fight Subversive Elements In Nation

By The Canadian Press

Canadians are taking steps to guard against the activities of subversive elements in the Dominion. Yesterday's ruling at Ottawa by Mr. Justice R. E. Chevrier of the Ontario supreme court that the Communist party of Canada is illegal, was hailed by the officers-generals of two provinces. Elsewhere there were indications that subversive interests would find little support in this country.

Attorney-General Gordon Cumstons, declared that the Ottawa ruling would "materially assist in dealing with subversive elements."

At Winnipeg, Manitoba's attorney general, W. J. Major, disclosed that the government is taking steps to have the Communist party outlawed in that province.

### R. C. WILL CO-OPERATE

Attorney-General Gordon Cumstons of British Columbia pledged the Pacific Coast provinces to the action of suppressing the Communist government may initiate to combat fifth column activities. The action of suppressing the Communist government may initiate to combat fifth column activities. The action of suppressing the Communist government may initiate to combat fifth column activities.

Mr. Cumstons revealed last night that he had suggested to the Justice Minister, Hon. Ernest Lapointe, that the Dominion Justice Department, through the Defence of Canada Regulations to apply to subversive activities throughout Canada and that such persons be interned.

The appeals against convictions under such regulations "would make no difference," the attorney-general said, noting that an appeal probably would be filed against conviction of three men in supreme court at Ottawa yesterday.

### CORPUS ASSN. URGES CURB

There were other indications of a growing demand for a check on fifth columnists.

The Saskatoon unit of the Canadian Corps Association approved resolutions urging action to curb activities of pro-German elements in Saskatchewan.

J. R. Bowler, general secretary of the Canadian Legion, revealed that Legion branches in many parts of Canada have forwarded resolutions to Dominion commands authorizing the Legion government to take immediate steps to suppress subversive elements.

The resolutions asked a ban on German language publications and German language meetings and investigation of non-money aliens. Hamilton city council passed a resolution Tuesday night asking for disfranchisement of persons convicted of subversive activity and its resolution found wide support throughout Ontario.

### TO RAID "RED" HOMES

Mayor Joseph Meitzinger, of Kitchener, Ont., and authorities at Hamilton, Ont., announced that homes of all known Communists and Communist sympathizers in those cities will be raided.

Montreal, Quebec Canadian Mounted Police announced they were detaining three enemy aliens taken into custody at border points. One of them, David Looz, 42, of Montreal, will be arraigned today on a charge of violating defence of Canada regulations by attempting to leave the country without the "exit" permit required by registered enemy aliens.

### YOUNG CHINESE

## WAITER TO FACE MURDER CHARGE

SHAUNAVON, Sask., May 15.—Jack Toy Ying, young Shaunavon waiter, last night was committed for trial on charges of murdering two fellow Chinese, Mah Hop and Fong Kai, in a fracas in the Grand Hotel here on the night of May 2.

Ying was sent up for trial by Magistrate J. C. Thomson, of Swift Current, after a one-day preliminary hearing.

Robert Roycroft, who was acting in the absence from Shaunavon of Chief Constable Jones Ross, testified that Ying had complained to him he wanted a woman removed from the Grand Hotel. Ying emptied strongly of liquor and his demeanor was such as to give him cause to fear him. Roycroft said there was nothing in Ying's actions to indicate he was intoxicated, however. Roycroft told defence counsel, C. H. J. Burrows, K.C., Regina.

When Mr. Burrows asked Mah Sam, Chinese injured in the hotel fight, whether he knew the woman Ying wanted Roycroft to get out of town, Sam said he had seen her in a local cafe but not in Mah Hop's room. Three other Chinese, Lee Kwong, Mah Yok and Mah Toy did claim knowledge of the woman.

### German Planes

## Try To Destroy U.S. Ambulances

NEW YORK, May 15.—James Wood Johnson, head of the United States Volunteer Ambulance Corps in France, said last night he had been informed that four of its ambulances on the western front had been partially destroyed by gunfire "directed" by a German airplane in a "deliberate attempt to destroy them."

Johnson said he was so notified by the Paris head of the corps, Dr. Jeanne V. Bourke. The drivers were unhurt, Johnson said.

### Plant Closes Up

MONTREAL, May 15.—The Drummondville, Que., plant of Canadian Cellulose, Limited, has suspended operations indefinitely because of company officials announced, due to conditions arising from the strike of factory employees which started last Saturday.

## NEW CABINET IS COMPLETED BY CHURCHILL

### Junior Ministerial Posts Filled On Wednesday

By J. F. SANDERSON  
Canadian Press Staff Writer

LONDON, May 15.—Prime Minister Churchill yesterday completed the formation of his government of one policy, "a wage war," with the announcement of appointments to the junior ministerial positions.

The political make-up of the new government, which includes all parties, is as follows:  
Conservative, 30; Labor, 12; Liberal, 7; and seven others difficult to classify by parties, including Lord Hunsley, Sir John Reith, Lord Beaverbrook and Lord Woolton.

### MINISTERS DROPPED

The following ministers of former Prime Minister Chamberlain's administration were not included in the new government: Sir Samuel Hoare, air minister; Sir Reginald Dorman-Smith, agriculture; Lord Zetland, India office; Walter Elliot, health; Oliver Stanley, war; Lord Stanhope, Lord President of the Council; Colonel John Colville, secretary for Scotland; Leslie Burgin, supply; Euan Wallace, transport; R. D. Dorman, ecclesiastical minister; the Duke of Devonshire, Dominions under-secretary, and Kenneth Lindsay, parliamentary secretary to the Board of Education.

Three members of the new government must find seats in the House of Commons: Ernest Bevin, minister of labor, a dominant figure in the trade union movement; Harcourt Johnstone, a Liberal, appointed secretary of the department

## Big-Scale Tank Warfare Forcing Officers To Work Out Strategy In Field

PARIS, May 15.—Unprecedented tank warfare, on a scale never attempted in military history, is forcing officers commanding tank units to work out their strategy and tactics right on the field of battle.

With no previous similar actions of this type or scale on record they have to get out of difficult situations as best they can, military sources said.

The officer commanding one tank group was carrying out a vanguard operation through a deserted village. He got out of his tank to investigate a number of empty rooms when he suddenly was surprised in a surprise offensive by enemy tanks. He fought off the German detachment single-handed until he was rescued by snipers attacking French troops.

Another officer commanding a group of tanks during an advance was blinded out of the opening in the turret of his machine by a German land mine. Unconscious the officer scrambled to his feet and

of overseas trade, and Sir William Jowitt, labor, who became solicitor general.

### CREATES NEW POST

The prime minister created a new post of secretary for petroleum yesterday and gave it to Geoffrey Lloyd, former secretary for mines.

The Dominions secretary, Viscount Caldecote, will act as government leader in the House of Lords, succeeding Lord Stanhope.

Other appointments: W. S. Morrison, postmaster general, re-appointed.

Sir Walter Monksley, minister of pensions, re-appointed.

Vicount Cranborne, paymaster general.

led the rest of his tanks safely through the mine field on foot despite intensive fire from German advance positions.

A former cavalry officer, now assigned to a motorcycle, turned his cavalry experience to good advantage during the battle. While riding in a sidecar at the head of his detachment he suddenly came up to a barricade ordered in a village street by the Germans. He hesitated for a moment and then ordered a charge against the barricade in the best traditions of the cavalry.

His machine crashed through the barricade with the cars of the group right behind him. Motorized artillery detachments following the motorcycles then opened fire on the breach with 75s and ten German tanks were destroyed.

## BUTTER, BACON, SUGAR RATIONS CUT IN BRITAIN

LONDON, May 15.—A reduction in rations of butter, bacon and sugar was announced last night by Lord Woolton, the food minister, in reviewing the situation created by loss of Dutch and Scandinavian supplies and the need for vital shipping space.

The butter ration will be cut from eight to four ounces per person a week, starting June 3. The sugar rationing will be cut from 12 to eight ounces a week starting May 27, and the bacon ration will be reduced "soon."

The food ministry said the reduction in sugar allowance was due to the partial failure of the British West Indies crop and the need for conserving currency resources. Lord Woolton, who gave Britain a pledge that "whatever happens you shall have food," warned that "this is not a time for speech-making. It is a time for action."

## QUEBEC ASSUMES DUTIES TO HELP MONTREAL CITY

QUEBEC, May 15.—Montreal's creditors "may rest easy because the Quebec government has assumed its duties" in regard to the city's financial difficulties, Premier Adolphe Godbout told the legislative assembly yesterday.

The premier did not reveal what plan the government had in mind for solving Montreal's financial problems which, in addition to an estimated deficit of \$7,000,000 for the fiscal year 1945-46, include inability to meet a bank loan and a public bond issue which matured Wednesday. These obligations totalled more than \$8,000,000.

Mr. Godbout, who conferred earlier in the day with a delegation of Montreal officials headed by Mayor Camille Houde, said "the city will not suffer, its credit will not suffer and all parties interested will receive all which is due them."

## GERMANS STAB DUTCH IN BACK AS "GRATITUDE"

OTTAWA, May 15.—F. E. H. Grootman, Netherlands minister to Canada, said in a statement last night that his country "has been stabbed in the back by a horde of Germans who for years has enjoyed its hospitality."

"The Netherlands are down, but not broken and will rise again because whatever may be lost, the country's soul has been saved," the minister said.

"Our Allies have helped as much as they could. Their blood and that of our men has mingled in an attempt to stop the aggressor. It has been of no avail because time was short, the aggression too brutal and too quick. The Netherlands are in the hands of its ravagers."

"But our noble Queen, who on May 30 proclaimed The Netherlands burning in our hearts. For this we will keep the fire of that indignation burning in our hearts. For this is not only directed against the enemy—it is directed against that is mean, false and mighty in the world."

### C.C.F. Planning To Question Spending Of Federal Money

OTTAWA, May 15.—J. S. Woodsworth, leader of the Co-operative Commonwealth Federation, said yesterday his group hoped "that during this important session we may have full opportunity to inquire into the way in which this government has so far expended the large sums of money entrusted to it."

Mr. Woodsworth made his statement after presiding over a morning session of a caucus of C.C.F. members of parliament.

T. C. Douglas, member for Weyburn, was elected party whip and members were chosen to serve on various house committees and to deal with different aspects of parliamentary work.

### Calgary's Norse Plan Celebration Independence Day

CALGARY, May 15.—Though their homeland is in the hands of Germany, Calgary's Norwegians will celebrate the anniversary of their independence yesterday.

# Outstanding Benefit to Alberta Proposed in Royal Commission Plan

## Commission Calls For "Clearing Up" Alberta's Credit

### Default To Bondholders Has Prevented Economic Expansion, Says Dominion Provincial Report

By CARL REINKE  
Canadian Press Staff Writer  
(Copyright, 1940, by The Canadian Press)

OTTAWA, May 16.—An outstanding benefit to Alberta of the fiscal plan proposed by the Royal Commission on Dominion-Provincial Relations would be the "clearing up" of the present credit situation," the commission asserted in its report released today. The plan calls for assumption of all provincial debt, including unpaid interest, on the same terms in Alberta's case as with every other province.

## MARITIMES SHOULD SEEK OWN RELIEF

Have No Claim On Dominion For Compensation, Says Report

OTTAWA, May 16.—A study of Maritime claims since Confederation failed to reveal that any "contractual or quasi-contractual" claims of the Maritime provinces in the matter of Dominion transportation had been violated.

The report of the Royal Commission on Dominion-Provincial Relations made public today, "No claim of the Maritime provinces to the use of their ports for the external trade of the Dominion," the report added.

People of Canada had made "substantial sacrifices" to divert trade through maritime ports and the commission did not consider any compensation should be allowed for the failure of bona fide attempts to build up trade.

**WEIGHED HEAVILY**  
Development of large steamships and much of great port development on the Atlantic seaboard, and the "economics" of transportation, had "weighed heavily against the ports of the maritime provinces."

"The people and governments of the maritime provinces will naturally object, through whatever agencies seem best to them, such a direction of the Dominion's external trade policies as in their judgment is prejudicial to their well-being and the economic development of their provinces," the report said.

**COMMISSION'S CONCERN**  
The commission is not concerned as much with the merits of the Maritime policies as the effect which they may have on the fiscal needs of the various provincial governments and the financial resources which are available to them.

Where are designed to meet whatever situation may arise in the future in respect of Dominion transportation, the report said. Study of the maritime claims was made by a brief of the New Brunswick government and in the submission of the transportation claims, the report said.

The commission found Confederation proposals made prophetic that as a result of political union and building of a transcontinental railway, external trade of the Dominion would "flow largely through maritime ports."

Despite continuous efforts of Dominion governments and their expenditure of money those provinces failed to realize for reasons of "transportation facilities" and technological changes that Confederation fathers could not foresee, in the commission's opinion.

**Discusses Claim Of Saskatchewan As To Resources**

OTTAWA, May 16.—Claims of Saskatchewan for revision of the \$5,000,000 award of the Dominion for compensation for Dominion depletion of natural resources from 1905 to 1930 should be abandoned by the Royal Commission on Dominion-Provincial Relations as it is not recommended in its report today.

The Dominion returned control of the oil and gas fields in Saskatchewan in 1930, and the majority report of the commission called for payment of \$5,000,000 to the province. Mr. Justice Brien, however, recommended payment of more than \$50,000,000.

Saskatchewan urged the Royal Commission on Dominion-Provincial Relations to review the report in award, but the report made today the commission decided it would be "impossible for it to make detailed recommendations on such a complicated question which already has been the subject of a special inquiry."

"We strongly recommend, however, that this claim should be settled before, or as part of, any general readjustment of the financial relations between the provinces and the Dominion," the report added.

There was no such term as "royalty" or "rent" until the day of Benjamin Franklin. He originated the names.

## B.C. WARNED AGAINST DROP RESOURCES

By CARL REINKE  
Canadian Press Staff Writer  
OTTAWA, May 16.—The financial security asserted by the province under the fiscal plan of the Royal Commission on Dominion-Provincial Relations would provide British Columbia with a "resilient" position against the day when its exploitable resources begin to show serious depletion, the commission said in its report released today.

British Columbia enjoys government services of superior standard, provincial revenue being nearly equal to the federal share. An important extent, the province has been living on its capital," the commission stated.

"Overhead government costs that are easily borne by the province above-average resources and a huge capital investment program, may exhaust the province's resources remain and new investment is required," it went on.

"Services and a standard of living established and financed by treating capital depletion as current costs will be subject to extreme pressure when the first phase of exploitation passes."

The province for years to come would have a per capita income higher than the average but the province would be "unstable and vulnerable." The commission warned.

"The necessity of amortizing debt, the heavy Dominion subsidies and particularly for those such as the Pacific Great Eastern (railway) have already proved unduly onerous and unproductive, before the province can be placed on a sound financial basis."

The commission said that the province should have a per capita income higher than the average but the province would be "unstable and vulnerable." The commission warned.

"The necessity of amortizing debt, the heavy Dominion subsidies and particularly for those such as the Pacific Great Eastern (railway) have already proved unduly onerous and unproductive, before the province can be placed on a sound financial basis."

## Prairie Census Not Needed Now

Report Says

OTTAWA, May 16.—Ducumination of the special prairie census taken every five years was recommended in the report of the Royal Commission on Dominion-Provincial Relations.

Carried out in Manitoba, Saskatchewan and Alberta twice as often as in the rest of Canada, the census was instituted so that Dominion officials could keep up to date. The need for this frequent readjustment is lessened, the commission said, as the rate of growth of the prairie provinces has slowed down.

Cost of the 1936 prairie census was \$100,000. A year would be saved by its discontinuance.

The commission said that the province should have a per capita income higher than the average but the province would be "unstable and vulnerable." The commission warned.

"The necessity of amortizing debt, the heavy Dominion subsidies and particularly for those such as the Pacific Great Eastern (railway) have already proved unduly onerous and unproductive, before the province can be placed on a sound financial basis."

## Spending For Education And Welfare Cut Below "Reasonable" Standards In Mid-Prairie Province

By CARL REINKE  
Canadian Press Staff Writer  
OTTAWA, May 16.—The experience of Saskatchewan in recent years illustrates the weakness in the present division of financial and constitutional powers and responsibilities, the Royal Commission on Dominion-Provincial Relations declared today in its report.

It demonstrated "our inability to grapple effectively with any emergency within the framework of the present system."

Saskatchewan's position served as "an extreme and vivid example of the vulnerability and impotence of the present system in the face of unfavorable regional developments of the arbitrary, inefficient and wasteful extra-constitutional transfer and palliatives which must be resorted to in desperation and in the crying need for a more rational present public finance system to bring it more in line with the modern Canadian economic and social conditions."

In the decade of the late 1920s, the people of Saskatchewan suffered a reduction in income proportionate to the reduction in any other civilized country, the report said.

It noted a willingness by the province to make sacrifices in order to achieve the province of Alberta did not appear before the commission as a result of the province's position.

The question of union, both on the part of the province and on the part of the people, was essentially one for the people most concerned to decide, the commission reported.

It noted a willingness by the province to make sacrifices in order to achieve the province of Alberta did not appear before the commission as a result of the province's position.

## Canadian Troops Honored With Guard Of King's Palace

Their Majesties King George and Queen Elizabeth (arrow) watch from the balcony of Buckingham Palace as, for the first time in history, troops from elsewhere than the British Isles are trusted with honor of guarding the royal home. Troops are detachment of crack French-Canadian Royal 22nd Regiment, on duty at Palace for four days.

## Luxurious Nazi Motorship Reported Sunk

One of the prizes of the German merchant marine, the 27,335-ton motorship Robert Ley, which was launched in 1938, is reported to have been sunk in the Skagerrak while being used to transport Nazi troops to Norway. The ship was named after Robert Ley, leader of the Nazi labor front.

## Wartime March Of The Grenadiers

Renowned down through British history in songs and stories, the British Grenadiers are once again taking their place in the battle line and are shown here going over the top during the hardening process that fits them for front line fighting on the Western Front.

## The King Takes The Salute

King George, centre, with Major-General A. G. I. McNaughton, left, commander-in-chief of the first Canadian division, take the salute as the Royal 22nd French-Canadian Regiment took over the Buckingham Palace guard.

## Vice Chiefs Of Staff Attend Cabinet

The three new vice chiefs of staff are pictured leaving 10 Downing St. after attending their first cabinet meeting. At the left is Gen. John C. Dill. He is followed by Vice-Admiral T. S. V. Phillips and Air Marshal R. E. C. Paine. The vice chiefs were named to take some of the overflow of work and responsibility from the shoulders of the regular chiefs of staff.

## First Lady Becomes Leading Lady

About the only role Mrs. Eleanor Roosevelt has not played is that of movie star, so now she's doing just that. She's pictured preparing to go under bright lights in a New York studio, where she recently made a short on the Roosevelt family's hobbies. Pictured with her are hobby expert Dave Elman (back to camera) and director Arthur Leonard.

## They Torpedoed The Admiral Scheer

Lieutenant Commander Forbes, right, and Lieutenant Pirie smile in satisfaction as they talk over the salvo of torpedoes they fired from H.M. submarine Spearfish which is reported to have put the Nazi pocket battleship Admiral Scheer out of action.

## Rescued Crew Members

Sixteen survivors of the freighter Azlington, which foundered and sank, May 1, in a Lake Superior gale were en route to Owen Sound, May 3, aboard the Collingwood, whose lifeboats rescued them in racing seas. Shown here the three of the rescued crew: "Tad" Swail, deckhand, left; Lester Woods, second engineer, centre, and Arthur Noland, eldest, right. Swail and Noland are from Midland, while Woods' home is at Waverley. Capt. Fred Burke of the Azlington went down with his ship, ignoring the pleas of his crew.

## British Sub Docks With Nazi Prisoners

A group of Nazi prisoners are shown being landed in England, under guard, from the British submarine Snapper, which has been in action during the Norwegian war. The Snapper sank at least four German transports or supply ships.

## Her Majesty And A Trayful Of Death

Queen Elizabeth leans across a table loaded with tracer shells to chat with a girl munition worker, while King George, in military uniform, takes a closer look at one of the death-dealing projectiles during their visit to a factory where the shewers of war are manufactured for Britain. Tracer shells are so called because their flight may be traced at night by a burning device that leaves a plain trail.

## Canadian Defence Minister In London

In England and France conferring with British and French military and political leaders, Defence Minister Norman MacLeod Rogers is pictured here in his London hotel with Major-General Cresser, general staff of Canadian military headquarters, left, and Hon. Vincent Massey, Canadian high commissioner in London, right.

# Belgium Glove And Hosiery Company Opens Today

**Firm Specializing In  
Ultra-Modern Styles  
In Downtown Premises**

**Beautiful Gloves Imported from Belgium,  
France—All Other Products Sold Are  
Manufactured in Canada**

Adding still another streamlined business establishment  
to Edmonton's rapidly increasing list of up-to-the-minute

**Store Has Modern Design**

Of striking, clean, sharp modernistic design is the store front of the Belgium Glove & Hosiery Company Ltd., shown above, at 10132 Jasper Avenue. The shop, which opened today, will specialize in women's accessories, with gloves of imported Belgian design and high grade hosiery featured. Sportswear, lingerie and skirts of modern style will also be handled. The company has 15 stores in Canada.

shops, Belgium Glove and Hosiery Company, Ltd., is open today at 10132 Jasper Avenue.

Although gloves and hosiery are the lines in which the company specializes, lingerie, skirts, jackets and ladies' sportswear of all kinds, in the most attractive ultra-modern styles, will also be handled.

The handsome new Edmonton store is the 15th addition to a chain, extending from St. John, N.B., to Calgary. Three stores are operated in Montreal, where the head business office of the firm is located, while Toronto has no fewer than five. Other leading Canadian cities in which the company carries on business are Ottawa, Fort William, Winnipeg, Regina and Calgary.

#### BEAUTY, UTILITY

Beauty of design and general utility have been a noted feature of the imported gloves, which the company has bought in Belgium and France for some time. All other products sold, however, are manufactured in Canada.

Preparations for today's opening have been made by N. Moser, general manager of the company, and providing over the special opening day sale is Miss L. Morris, former manageress of the Montreal store. Miss Morris travels from one store to another to supervise merchandising technique, in which she is a recognized expert. Selection of a manager for the store here will also be made by Miss Morris during her stay in the city.

The public of Edmonton is invited to inspect this fine new store and will be assured of courteous

and expert advice in making purchases.

Many special values will be offered on the opening day and the public are urged to visit the shop as early as possible so that congestion may be avoided.

#### HANDSOME FIXTURES

The interior of the shop is one that is sure to please the eye and general taste of even the most exacting. Clean, bright, smooth and functional is the thought conveyed by the handsome interior and fixtures as well as the modernistic facade on Jasper Avenue. Specially equipped with mirrors are several

rooms where goods may be tried on by customers. Glassware, with walnut finish, in the material used on the interior.

All work was done by Edmonton workmen. Glass covered sliding drawers have been installed for the gloves and lin-

gerie, allowing for both a maximum of display and speed in handling. Glass clothes racks at the rear are a new feature.

The indirect lighting technique is employed, light coming from huge, high candlepower lamps in the centre of the store. Shades are of modern glass and chromium.

The company was originally founded in Canada by the late J. Kermans of Brussels, who came to Canada during the

German invasion in the First Great War. The business has steadily expanded.

## Come and Inspect

Edmonton's newest and most gorgeous women's shop... specializing in hosiery, gloves, lingerie, knitted sportswear, skirts, blouses and jackets.

## An Invitation to Edmonton Women Come Friday and Saturday to the

might soon be plunged into the

- 3—Reports from Rome that a peace message from President Roosevelt to Premier Benito Mussolini was expected to have "little or no result."
- 4—Action of the United States legation in advising all Americans to leave Rome for a few days.
- 5—Allied reports that Germany might attack Switzerland (and an unconfirmed rumor in London that Germany was pressing Switzerland to accept a "protectorate").
- 6—Reported closing of the Slovakian-Hungarian border and the massing of troops on that and other frontiers.
- 7—Diplomatic maneuverings throughout the Balkans.
- 8—British fleet movements in the Mediterranean.

On the basis of Roosevelt's reported action in asking Mussolini to prevent the spread of hostilities was interpreted here as an indication that the United States was

into the war on the side of Ger-

### ADVISED TO LEAVE

Americans in Hungary were advised to leave for home by way of Italy because the S.S. Washington is preparing to sail Saturday, but Americans in other parts of Europe, it was pointed out, have been urged to leave from French rather than Italian ports.

The Swiss sports and the Swiss government's disclosure that the country was completely mobilized were studied with especial interest because Switzerland, like most of the Balkan countries, is a small and relatively weak nation.

Twenty-four hours after reports of troop mobilization in

Slovakia, a German protectorate, came advices from Berlin that

Germany had advised Yugoslavia to cease alleged mistreatment of Germans in that country. Herebefore Yugoslavian fears had been focused on the Italian border.

Hitler's newspaper *Voelkischer Beobachter* charged that Yugoslav police had arrested and beaten German schoolboys and that the Yugoslav government had banned a German celebration.

**Disturbing Reports From  
Italy Cause Anxiety  
In Hungary**

By HENRY T. GORRELL  
British United Press Exclusive Cable  
to The Edmonton Bulletin

**BUDAPEST, Hungary, May 16—**  
Fear increased in this capital to-  
day that more European countries

The fear, according to diplomatic sources, was based on:

- 1—Reports from Rome that a peace message from President Roosevelt to Premier Benito Mussolini was expected to have "little or no result."
- 2—Action of the United States legislators in advising all Americans

**3**—Allied reports that Germany might attack Switzerland (and an unconfirmed rumor in London that Germany was praising Switzerland to accept an Italian protectorate.)

**4**—Reported closing of the Slovakian-Hungarian border and the massing of troops on that and other frontiers.

**5**—Diplomatic maneuverings

President Roosevelt's reported action in asking Mussolini to prevent the spread of hostilities was interpreted here as an indication that Italy was contemplating entry into the war on the side of Germany.

Americans in Hungary were advised to leave for home by way of Italy because the S.S. Washington is preparing to sail Saturday, but Americans in other parts of Europe, it was pointed out, have been urged to leave from French rather than Italian ports.

The Swiss reports and the Swiss government's disclosure that the country was completely mobilized

ere studied with especial interest because Switzerland, like most of the Balkan countries, is a small and relatively weak nation.

Twenty-four hours after reports of troop mobilisation in Slovakia, a German proclerator, came advices from Berlin that Germany had advised Yugoslavia to cease alleged mistreatment of Germans in that country. Here-  
fore Yugoslavian fears had been

Hitler's newspaper Vostokischer Beobachter charged that Yugoslav police had arrested and beaten German schoolboys and that the Yugoslav government had banned a German celebration.

## Looking Them Over

By Jack Kelly  
System's Test  
Not Over Yet  
Pot Shots

THE mighty titillation system of baseball that Colonel Jack Ruppert established in his Yankee domain will be tested to the limit this season. The Yankees that smashed their way to four consecutive world championships didn't just happen along through a series of favorable circumstances. They were planned by a system and organization that the late Colonel believed could be relied on to dominate baseball indefinitely.

Right now the Yanks are at the bottom of the American League standings, but don't let that fool you into thinking that the machine built by Ruppert and his generals has finally worn out. The Yankees may not win the league this season, but it will be surprising if they are not in on the final sprint for it.

If Manager Joe McCarthy finally decides that his present roster has the needed power, he has the material in reserve to do a lot about it in a matter of hours. The league officials have placed the cards against the Yanks somewhat in the matter of calling up help, but the wheels change are far from being dislodged of recovery.

All reports indicate that McCarthy, a diplomat of the first water, has kept his team free of the feuds, huffs and jealous squabbles that often ruin a club's great plans. Furthermore, he has injected a fiery type of college spirit into his players that may burn up the league before season time rolls around again.

However, no less an authority than Connie Mack is convinced that either the Boston Red Sox or Cleveland Indians will top the American League pennant. Connie made that prediction before the season started and he is sticking firmly to it, so far developments are right in line with his forecast.

Even if the Yanks finish no better than third this season, they will still vindicate the effectiveness of the super-efficient system of baseball that Colonel Ruppert developed. A world championship every other year is better than the rest of the major league units have been able to win and on this basis the Yanks can afford to mix for a couple seasons without degrading the club, far-flung organization that reduced them.

☆☆☆

### Notes From the Sport Spike

**FRIDAY, 9:00 p.m.**, at the Macdonald hotel, will see definite progress made toward lining up a football program for the 1940 season in Edmonton. At this time and place the Edmonton Sport Booster Club will complete its adjourned annual meeting by adopting some sort of plan that will keep the grid game alive here even though the Eskimos will not enter Western Conference play this year.

Whitby Thurons, the brilliant U.S. basketballers who open a series with the Grads for the Underwood trophy this week-end, are due to arrive here this evening or early Friday morning according to word received last night by Percy Page from Coach Buddy Reynolds. The Wichita girls are travelling by motor coach.

Grady will drill tonight at the Arena starting at 8:00 p.m. Jimmy Dinnert, kingpin of U.S. golfers as the moment, gave took a lesson in his life. He picked up the fundamentals of the game while sitting as a caddy and played in his first tourney when he was 12 years old—most for Houston addition—and he won it. Since then he has polished his game with side pointers given him by some of the top winners. When he was only 14 years old, he was shooting in the low twenties.

It was the blood, Jim Rogers, one of the late Will Rogers, now rates as one of California's best polo players. He cut his teeth on a stock and rode the western range for many years before he soared to international fame on the stage and screen.

### GONZAGA QUITS HOCKEY SPORT

SPOKANE, Wash., May 15.—Gonzaga University is dropping out of hockey as a collegiate sport, Athletic Director Claude McGrath announced Wednesday.

The Gonzaga team, made up entirely of students recruited from Western Canada, finished last in the West National Amateur League last season. But McGrath said one of the deciding factors was the high cost of the game.

Denny Edge, who coached the Gonzagans, and he would attempt to keep the Spokane team in hockey through commercial sponsorship.

## BULLETIN

Rookie Catcher Ends His Circuit Trip

Brooklyn's amazing Dodgers, no longer the doormats of the National League, came up with a new catcher this year in Herman Franks, and like everything else the Dodgers have tried this spring, the big mitt man came through with a bang. Here is Franks scoring on a home run in Ebbets Field, in a clash with Boston Bees. The wallpacer two of Franks' mates ahead of him and started the Dodgers to an 8-3 win. To add to his laurels, Franks closed a double and two singles later in the game for a perfect "four out of four" day.

### JIMMY FOXX' STARRY TEAM IS POWERFUL

CHICAGO, May 16.—Jimmy Foxx, who qualifies as an authority on the subject of hitting, lived up to his power-mythical baseball team today when he guaranteed would send shells through all opposing mythical pitchers even on their best day.

**HITTING ABILITY**  
Foxx, the Boston Red Sox first sacker who has slammed out eight homers this season and currently leads the major leagues in runs batted in, emphasized his selections were made strictly on consistent slugging ability, with defensive ability not considered. His mythical club has a lot of defensive class, however, and the only thing wrong with it is that Jimmy declined to put himself in "uniform."

Here is his powerhouse aggregation made up entirely of active players: Catcher: Bill Dickey, New York Yankees pitcher: Red Ruffing, Yanks; Bucky Walters, Cincinnati; Earl Leonard, Washington; and Jim Bagby, Boston Red Sox third base. Ken Keltner, Cleveland, shortstop; Joe Cronin, Red Sox; second base; Charley Gehring, Detroit; first base; John Mure, Cardinals; and from left to right in the outfield, Joe Medwick, Cardinals; Joe Dimech, Yanks; and Ted Williams, Red Sox.

**WHEN CHIPS DROVE**  
That team is selected strictly for hitting ability," he said. "On a defense standpoint I'd take Luke Appling, Chicago white Sox, or Arky Vaughan, Pittsburgh, over Cronin, and Joe Gordon, Yanks, or Bob Dier, of our club over Gehring. But when the chips are down I'll take Cronin and Gehring at the plate."

Foxx again emphasized when he named Mure, Williams, Joe DiMaggio and Charley Keller (Yankees) as the four greatest natural hitters now in baseball. Exclusive of pitchers, the collective lifetime major league hitting average of his mythical team is .320 plus.

The Jewish race has about twice as great a tendency to tuberculosis as any other group of the white race.

Old Kentucky CIGARETTES

### Five Milwaukee Hurlers Winning For Brooklyn

By HARRY GRAYSON

Exclusive to The Edmonton Bulletin

NEW YORK, May 16.—Brooklyn has the pitchers who made Milwaukee famous, five of them—Tex Carlton, Luke Hamlin, Whitlow Wyatt, Tod Pressnell and Newt Kimball. Carlton, the ho-ho, no-run hero, would have quit baseball had not the Dodgers picked him up. No other outfit was interested.

He intended to retire a year ago when the Cubs sent him to the Brewers. He might not be in the game now had not the coach of Texas Christian, where he went to school, become ill.

When he was asked to bat for the Montreal Braves for a few days, Carlton's arm felt so good he decided to report to the Milwaukee club at Ocala, Fla.

"The Cubs suspected I was joking, but my arm had really been bad," the tanned right-hander told me while he was at the Brewers' training base.

"I'll be back in the majors. There are fellows setting by up there who can't pitch as well as I can and who don't know half as much as I do about pitching."

Larry McDaniel, president of the Brooklyn club, takes no credit for bringing in Carlton.

**RATS FOR CARLTON**  
"The story is this," he says. "Henry Bendinger, president of the Milwaukee club, is a good friend of mine. We've made some previous deals with Milwaukee, the last of which was for Whit Wyatt. It ran off fine. No quibbling, no haggling about terms."

"Henry felt Carlton had the stuff to win again in the major leagues. He called me up and asked me to buy him."

"Now, mind you, Carlton didn't have a good record with the Milwaukee club, only 11 won and nine lost. If he had good stuff, you couldn't tell it by the records. So, of course, I was a little doubtful, but Henry insisted he was pitching as well as he did when he came up with the Cardinals."

"He explained the reason his record wasn't so good was that he hurt his wrist in an accident in the middle of the campaign, and because the Brewers' pitching staff was pretty low he had to go on working with the best wrist."

**TAKEN ON LOOK**  
"Take him on a look. You can have him on a look until the opening day of the season."

"And that's what I did. Henry is a reasonable price, and it was O.K. with me, and so we got Tex to Clearwater, and the minute I saw him throw I knew he was all right again, and that we would send him back before the season started."

Much Casey of Brooklyn's pitching Big Three also had a whirl with the Cubs. So did Herb Kimball, whom Leo Durocher believed was a future choice of making good.

Dolph Camilli and Babe Phelps, important men in the Brooklyn group, formerly played with the Chicago Cubs.

Former Cubs, as a group, have done mighty well in other pastures.

**Indian Softball Team To Practice**  
Indians of the Fairtime Softball League will drill at the Golf Links on Friday evening. The practice will start at 7:00 p.m. and all players are requested to turn out. Those several varsity players left in the team and prospective players have a strict chance of catching on with the club.

### FOURTEEN TOP FLIGHT GOLF ACES TEE OFF

By GAYLE TALBOT

NEW YORK, May 16.—Fourteen top flight golfers of the United States and an added entry from the Argentine, Martin Dow, tee off at Fresh Meadow Country Club today in that unique and slightly complicated test known as the Goodall Round Robin tournament.

Prizes totalling \$5,000 await those who have completed the best "putt scores" when the final round of match play is completed Sunday.

Jimmy Demaret of Houston, Texas, who gave the boys a trimming all around the winter circuit and wound up with an impressive record in the Masters event at Augusta, is the favorite. Harry Cooper, last year's Goodall winner, is not entered this time.

Some regard the Goodall as the truest test of competitive golf. They go out in sets of three, in seven 18-hole rounds.

The scoring is on a "plus" and "minus" basis. If a player is two up on each of his rivals at the end of a round, he has a score of four-plus. Each of his opponents is two-minus, which is bad. Cooper, Canadian open champion in 1932 and 1937, won with a remarkable final score of 31-plus last year. He was three strokes over par for the seven rounds.

Two rounds each are scheduled Friday, Saturday and Sunday.

### BROOKLYN, N.Y., May 15.—Cincinnati Reds retaliated for Tuesday's defeat by the Dodgers with a five-run first inning today to beat Brooklyn 5-2 and return to first place in the National League.

Eleven men went to the plate for Cincinnati in the riotous first inning. Bill Weber opened the bombardment by hitting Whitlow Wyatt's second pitch for a home run. Then a walk to Lonnie Frey, a single by Iral Goodman and a pass to Frank McCormick filled the bases. Bill Herberberger tripped.

Van Lingle Mungo came to the mound and John Rizzo hit his first pitch for a single scoring Herberberger.

Cincinnati ... 500 000 000—2 1 1  
Brooklyn ... 000 000 000—2 1 1  
Thompson and Herberberger: "Putt, Mungo, Kimball and Franks.

**FRENCH BLANK BEES**  
BOSTON, May 16.—Larry French's twelfth pitching gave Chicago Cubs a 3-0 National League victory in a hard-fought duel with Rookie Nick Strincevich of Boston Bees.

Both hurlers up to the seventh inning limited the opposition to single scratch hits.

Chicago ... 000 000 000—2 1 3  
Boston ... 000 000 000—0 2 2  
French and Todd: Strincevich, Kertman and Lopez.

**GIANTS THUMB REVS**  
NEW YORK, May 16.—New York Giants gave Pittsburgh Pirates a 3-0 thumping with 35-year-old Carl Hubbell going the round. The only runs Hubbell gave up were homers by Lee Handley and Bob Elliott.

Joe Moore started the Giants with a two-run circuit blow in the third.
